I. INTRODUCTORY NOTE

Ranchi Women's College was established to provide the opportunity of higher education to the unprivileged women of Chotanagpur, a neglected and undeveloped area of then Bihar with a firm vision and reflected it in the logo to bring forth these women into the main stream of the society from their marginalized status. Since inception till date, the College management concentrates on the same vision with its ceaseless efforts to encourage and inspire the girls of Jharkhand and other states to attain freedom from the darkness of ignorance and misunderstanding and lead them towards ever widening luminous world of wisdom, knowledge and independence. The College still follows the mission to lead girl students to march successfully towards knowledge, enlightenment and empowerment through various curricular, co-curricular & extra-curricular activities.

Ranchi Women's college has carved out a niche for itself in the world of higher education for women in social sciences/humanities, sciences, commerce and vocational courses. It aims to develop the all-round development of personality, bring out the latent qualities of the students and urge them to undertake creative activities. It also addresses the employment prospects of the girls helping them achieve equal opportunity in society. Since most of the students come from lower strata of society, the college intends to help them shape their inner and outer personality into confident, self-reliant, and emancipated persons without any inferiority complex or hesitation.

The College has instituted a comprehensive mentoring system, designed with the primary goal of providing students with effective guidance in supporting their holistic personal development. This approach aims to foster not just academic success but also to build confidence and enhance emotional well-being among the student body.

The College is committed to fostering students' awareness of social responsibility. This is achieved through a range of outreach programs meticulously organized by the National Service Scheme (NSS) and the National Cadet Corps (NCC). These initiatives go beyond theoretical knowledge, actively cultivating social consciousness among students and

heightening their sensitivity towards contributing to the betterment of underprivileged sections of society.

Our state-of-the-art ICT-enabled classrooms are designed to elevate the overall learning experience. Moreover, dedicated laboratories provide hands-on learning opportunities, reinforcing theoretical concepts with practical applications. The institution's enriched, partially automated library further facilitates learning by offering free access to a plethora of e-journals and e-books through the UGC-INFLIBNET N-LIST program.

In the pursuit of educational excellence, we place paramount importance on access, equity, inclusion, and quality. While embracing and promoting modern technology, we are equally dedicated to instilling in our students a robust set of values and ethics. This dual approach aims to nurture individuals who not only excel academically but also evolve into responsible and conscientious citizens.

Furthermore, recognizing the multifaceted challenges that students may face, the college has established a counseling center. This center provides invaluable support, ensuring that students can seek guidance and assistance while maintaining the utmost confidentiality and anonymity. This underscores our commitment to fostering a supportive and inclusive environment for the well-being of our student community.

III. ACADEMIC PROGRAMS

As part of our commitment to providing the best education possible, we have adopted the **National Education Policy (NEP) Curriculum** for the batches of traditional degree programs starting from 2022-26. This updated curriculum is designed to equip our students with the skills and knowledge needed to excel in their chosen fields and meet the challenges of the modern world.

For the other operational sessions of 2020-23, 2021-24 and 2022-25 (vocational department), we follow the **Choice Based Credit System (CBCS) Curriculum**.

At Ranchi Women's College, Ranchi, we are committed to staying at the forefront of educational excellence, and our integration of the NEP Curriculum reflects our dedication to offering the best possible education for our students. We look forward to continuing our tradition of academic excellence in the years to come.

IV. NEP COMPLIANCE

As part of our commitment to providing the best education possible, we have adopted the **National Education Policy (NEP) Curriculum** for the batches of traditional degree programs starting from 2022-26. This updated curriculum is designed to equip our students with the skills and knowledge needed to excel in their chosen fields and meet the challenges of the modern world.

The NEP Curriculum for the first batch (Semester I) is structured as follows:

(a) Major (MJ1) - Discipline Specific: This component focuses on specialized courses tailored to each discipline, ensuring in-depth knowledge and expertise in the respective fields of study.

RANCHI

(A Constituent College of Ranchi University, Ranchi)

- (b) Common Courses (CC) Across Disciplines: These courses are shared by students from various disciplines, fostering interdisciplinary learning and encouraging a holistic approach to education.
- (c) Introductory Regular Courses (IRC): To enhance flexibility and cater to individual interests, students are provided with the opportunity to choose from a diverse selection of courses offered/mapped by the parent University for each stream.
- (d) Introductory Vocational Courses (IVC): In alignment with the practical demands of the professional world, students can opt for specific vocational courses from a set of options prescribed by the parent University.

VIII. STUDENT PLACEMENT

In the academic year 2022-23, the college witnessed a remarkable improvement in its placement outcomes. This achievement can be attributed to the college's Memorandums of Understanding (MOUs) with organizations providing skill-based training to the students. Through these collaborations, we have been able to provide extensive placement assistance to our students, aligning with various government initiatives.
